

## What's new in FLASH REPORT ?

1. Export any **Flash Report to Excel**
2. See the **TOP Market Players** having the same main business
3. Send any Flash Report **by email**
4. Check out the interest meter with **number of views** counter
5. Keep mouse over “Check Company” button to see an **Estimate Time of Delivery** for the next Flash Report

6. Double-click any table to **hide** it
7. Click **Basic** option to show the short report (one page)
8. Click **All** option to show the full report (unhides all tables)

9. **Page breaks** automatically inserted (might not work with all printer and paper formats)

10. Offline option allows you to retrieve stored reports (the **report date turns red** for offline reports)

11. Click **Easy Copy** for a safe data copy to other applications (Excel, Word etc.)

12. The **control panel** automatically **hides** before printing report
13. Click **Extra** option to get info about company's **legal actions** or **risks**.

*Tip:* Preview your Flash Report before printing and make sure that the **Print background colors and images** checkbox from **Tools/Internet Options/Advanced** menu is checked.
